SAFE TO HOST

THIS COMPLIANCE CERTIFICATE IS PRESENTED TO

Organization	Veer Surendra Sai University of Technology
Application	VSSUT Website & Application
Type of Audit	VAPT-Application
URL	List attached in Annexure I
Initial Testing	19/08/2025 - 21/08/2025
Re-validation	08/09/2025 - 16/09/2025
Report ID	R2507024
Hash	5ed0f3e3711e93d5eaac69ba2559897 10726bd9c6b078dfcf1b630c7e986507f

CONCLUSION/s

- The **application testing** has been **completed** on the provided **testing/staging environment**, and the checksum (Hash Value) of the patched code is mentioned in the certificate.
- Ensure that the patched code is deployed in the production/live environment immediately following the issuance of this certificate. Failure to deploy the patched code will leave the application in the production/live environment susceptible to vulnerabilities.
- The said application/s is safe for hosting with privileges of read permission for general public.

RECOMMENDATION/s

- Application should be deployed on hardened Server & Operating System.
- SSL should be deployed before putting on the production server.
- The certificate is valid for **ONE YEAR** from the date of issue or **till any changes made in the code of the application** or **any new vulnerability is discovered whichever is earlier.**
- Conduct proactive testing periodically & ensure any new changes introduced in the application undergo a security testing before they are published on the network.
